EXPERIENCE

Planet Argon | January 2018 - February 2018
Web Development Intern
- Worked on live projects in Ruby on Rails currently in Planet Argon's repertoire.
- Projects included a sitemap for Aloha Foods, enhancements to Nike News' 'Email Blasts' page, and additions to test suites.

Epicodus | July 2017 - February 2018
Ruby on Rails and JavaScript
- I've completed my coursework at Epicodus, a vocational school for aspiring programmers.
- Practiced learning 'how to learn' current web frameworks and languages, including Angular, Ruby on Rails, and Javascript.
- Practiced using documentation to quickly get started in new languages and frameworks.

Cascade School of Music | September, 2007 - July 2017
Faculty, Instructor of Clarinet and Saxophone
- Created and adapted lesson plans to individual skill and age levels
- Taught private lessons to students of varying age and skill
- Taught music theory and aural skills group classes.

Newport Avenue Market | November 2014 - July 2017
Front End Manager
- Hired, scheduled, and managed all supervisors, cashiers, and courtesy clerks.
- Reliably communicated to teammates as a leader.
- Maintained daily cash balancing systems and provided accountability to cashiers and supervisors.
